

**Amendments to the Claims:**

This listing of claims will replace all prior versions, and listings, of claims in the application:

**Listing of Claims:**

1. (Previously Presented) A method for treating a face pain, the method comprising the step of peripheral administration of a therapeutically effective amount of a botulinum toxin to the face of a mammal with a face pain not due to a headache, wherein the peripheral administration is carried out by intramuscular administration of the botulinum toxin, and wherein the face pain is not associated with a muscle disorder, thereby alleviating the face pain.
- 2-3. (Cancelled)
4. (Previously Presented) The method of claim 1, wherein the botulinum toxin is selected from the group consisting of botulinum toxin types, A, B, C<sub>1</sub>, D, E, F and G.
5. (Previously Presented) The method of claim 1, wherein the botulinum toxin is botulinum toxin type A.
- 6-8. (Cancelled)
9. (Previously Presented) The method of claim 1, wherein the pain is alleviated for between about 1 month and about 6 months.
- 10-11. (Cancelled)
12. (Previously Presented) A method for alleviating a face pain, the method comprising the step of peripheral administration of a therapeutically effective amount of a botulinum toxin type A to the face of a human patient with a face pain not due to a headache, wherein the peripheral administration is carried out by intramuscular administration of the botulinum toxin type A, and wherein the face pain is not associated with a muscle disorder, thereby alleviating the face pain.

13. (Previously Presented) The method of claim 12, wherein the botulinum toxin type A is administered in an amount between about 0.01 U/kg to about 35 U/kg.

14-30. (Cancelled)

31. (Previously Presented) A method for treating a face pain, the method comprising the step of peripheral, intramuscular administration of a therapeutically effective amount of botulinum toxin to a region of a face pain not due to a headache, wherein the face pain is not associated with a muscle disorder, thereby alleviating the pain in the face.

32. (Previously Presented) The method of claim 31, wherein the botulinum toxin is a botulinum toxin type A.
